

Home Learning

Year 6 Week 9
(week beginning 1st June 2020)

Welcome to our latest weekly update, South America Class. Hope you have all had a lovely half term break relaxing with your families and making the most of the beautiful spring sunshine.

We are now entering Term 6 – your final term at The Manor. I know it will look a bit different to how we all expected it to but it will still be a term of looking back and recognising all you have achieved and looking forward to all of the exciting things that your future holds. I have felt so proud of you all throughout this whole year, and in particular with how you have approached the strangeness of learning from home rather than in class with me, and just know that you will continue to do amazingly and absolutely smash Term 6 (whether you end up being at home, in school or a combination of both)!

English

Using the last *Talk For Writing* home learning booklet (Doors) created such great writing, I'd like us to work our way through another of their booklets -

<https://www.talk4writing.co.uk/wp-content/uploads/2020/05/Y6-Gadgets.pdf>

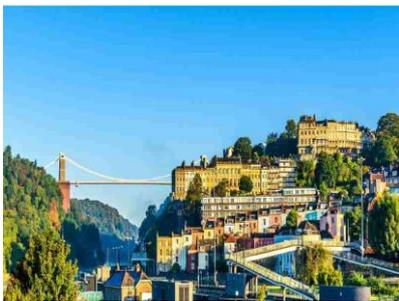

Please have a go at activities 1-3 this week

Maths

For Maths this week, I want you to use the problems from this site <https://whiterosemaths.com/resources/classroom-resources/problems/> (problems of the day) to practise a variety of the skills that you have learned so far in KS2.

Read the questions and consider what you are being asked – remember you can always draw an image/bar model to help you out – and then check that your answer seems reasonable. There is an answer document on this web page too. Try and do a few each day.

Topic

In term 6, we will be looking at our local area of Bristol in a topic called 'Ship Shape and Bristol Fashion'

This week, I would like you to try and find out the meaning of this phrase – *ship shape and Bristol fashion* and research why ships and the port is so important to the history of Bristol.

PSHE

This term, we will be thinking a lot about change. As we have previously discussed year 6 is a time for many changes – change of school, change of expectation on you (from parents/teachers/friends), changes in your bodies and, this year particularly, changes in the world around us.

Take some time to explore how you feel about these changes that have happened/are happening. You could draw a worry tree as we have in Jigsaw before, you could list them, you

could sort them into positive changes and changes you are feeling unsure about. Try to find someone in your house who you can talk to about this in a quiet space. It is important that those around you know what you are thinking and feeling.

Then, follow up this discussion by writing me a letter explaining how you are feeling about these changes and which ones you are most excited about – I look forward to hearing from you!

Gem Power Challenge

I know how truly amazing each and every one of you are and I am so lucky to be your teacher. Sometimes, you do not always realise just how fantastic you are so I would like you to practise recognising the greatness in yourself. Fill in the spaces below – try and imagine what others would say about you and celebrate the great!

I Am an Amazing Person!

Read and complete the sentences below.
You can draw or write the answers.
