Year 6 Term 6 Week 5

(week beginning 29th June 2020)

Hello South Africa Class. This week in school, in addition to our English and Maths, we will be visiting Forest School so if you are learning at home, take some time to get outside, enjoy the nature that surrounds us and produce some natural art.

A selection of these activities are shown below and therefore you will be able to pick activities within the theme. As always, have a look at the recommendations as a family and pick which ones work best for you.

English

This week we will be using the film 'Once in a Lifetime' from the Literacy shed to develop our narrative writing. The Literacy Shed have produced an activity pack to accompany this film which can be found on <https://www.literacysshedplus.com/en-gb/resource/once-in-a-lifetime-ks2-activity-pack>. Choose some of these activities to complete.

Maths

Here are some additional Maths ideas.

Write a 5, 6 or 7 digit number down in the middle of a piece of paper. How many ways can your child partition the numbers? CHALLENGE: How many ways could the number given be made?

Ask your child to record the ages of each member of the household. Using all of the digits from these numbers, what is the largest number they can make? What is the smallest? How do they know it is the biggest or smallest number?

Using the digits 2, 4, 4, 3, 8, 6, 6 and these clues work out the number. Clue 1 - The thousands and tens digits are the same. Clue 2 - The ten thousand digit is half of the digit in the ones. Clue 3 - It is a 6 digit number that is less than 400,000. Is there more than 1 possibility?

Look at a recipe with your child. Ask them how much of each ingredient would be needed if the amount of people it was cooked for was halved, doubled, tripled etc. What maths do they need to think about to do this?

On average female adults should have around 2000 calories a day and males around 2500 calories. Looking at the calories on food items, can your child design the meals for a day for either an adult female or male? Try and get them to fit in with the daily calorie recommendations.

Topic

Art: Research Wassily Kandinsky and his style of art. Then choose one of his pictures as inspiration. Try to either reproduce this yourself or use it as a stimulus to create your own Kandinsky-style picture.

Remember, there are more activities to challenge you on Oak Academy for all subjects.

<https://classroom.thenational.academy/subjects-by-year/year-6/>

In Term 6, the children would have been learning the following SRE (Sex and Relationship Education) content had they been in school:

Year 6 Puberty for boys and girls and understanding conception to birth of a baby.

You can email me any of your work at SouthAmericaClass@gmail.org.uk. I would love to see what you are learning at home.
